Dear Neighbour,

FCBC, the contractor working on the Forth Replacement Crossing main contract on behalf of Transport Scotland, will be carrying out road surface repair works at the temporary and permanent site accesses off the A904 and the B924 near Echline Corner, South Queensferry on the evening of Tuesday 15th May 2012 into the morning of Wednesday 16th May 2012.

Activity Description

The works consist of planing out existing surfacing which has been damaged by traffic and replacing with new surfacing.

Timing and Hours of Work

The road repair works shall be carried out overnight commencing Tuesday 15th May 2012 at 7pm and shall be continuous up to the following morning at 6am. Whilst we will make every effort to adhere to the stated programme these dates may alter due to unforeseen circumstances.

Plant to be deployed

The work shall be carried out using a road planer, road paver, road wagons and rollers.

The road repairs are an essential part of the overall Forth Replacement Crossing project, which is necessary due to concerns over the long term viability of the existing road bridge. The new crossing will maintain a vital link in the east of Scotland road network which is key to the wider Scottish economy.

We would like to take this opportunity to apologise, in advance, for any inconvenience our activities may cause and also to thank you for your patience and consideration to date.

For up to date information on the project please see Transport Scotland's FRC project website www.forthreplacementcrossing.info.
