Dear Neighbour,

FCBC, the contractor working on the Forth Replacement Crossing principal contract on behalf of Transport Scotland, will be carrying out a survey to ascertain the extent of concrete repairs required on both the A90 Standingstone Road underbridge and the A90 Dalmeny Railway underbridge on Saturday 16<sup>th</sup> June, Sunday 17<sup>th</sup> and Monday 18<sup>th</sup> June 2012.

### Activity Description

The works consist of clearing scrub and brush near the two bridges to gain access and then inspection of the concrete structures.

### Timing and Hours of Work

The works shall be carried out between 8pm each evening and 6am the following morning when trains aren't running.

### Plant to be deployed

The work shall be carried out using an underbridge inspection unit, two chainsaws, a chipper and site transport.

The bridge surveys are an essential part of the overall Forth Replacement Crossing project, which is necessary due to concerns over the long term viability of the existing road bridge. The new crossing will maintain a vital link in the east of Scotland road network which is key to the wider Scottish economy.

We would like to take this opportunity to apologise, in advance, for any inconvenience our activities may cause and also to thank you for your patience and consideration to date.

For up to date information on the project please see Transport Scotland's FRC project website [www.forthreplacementcrossing.info](http://www.forthreplacementcrossing.info).
