The Paul Castle Consultancy has prepared this report in accordance with the instructions of Jacobs Babbie for its sole and specific use. The Paul Castle Consultancy shall not be liable for any such use of any information contained herein for any purpose other than that for which the same was prepared and provided, pursuant to their appointment as Traffic Data Collection Specialists in this matter.

Authorisation For Issue

Fieldwork

Supervisor: Peter Fletcher

Report

Compiler: Nick O'Neil

Checked By: John Reynolds

Project Manager: Nick O'Neil

Report Date: 27th January 2005

In the event of any queries regarding the content of this report, please contact the Report Compiler (by fax or telephone) who shall deal with your questions.

In an effort to save on the environment and waste paper, we have forwarded the data sheets by e-mail to Brian Sloey of Jacobs Babbie at brian.sloey@Jacobs.com

Methodology Interviews

Each location was re-surveyed at a different date in order to interview the pedestrians using each pathway. The questions asked during interview were:

- *Origin Postcode*
- *Origin Purpose (Home, Recreation, Business, Education)*
- *Destination*
- *Destination Purpose (Home, Recreation, Business, Education)*
- *Journey Type (One Way or Return?)*
- *Route Description*

(Other information recorded – User Type (Pedestrian, Cyclist, Equestrian), Site Number, Date, Number Of People and Direction Of Travel.)

Because of the relative quietness of all of the locations it was possible to interview all of the Pedestrians passing through each location.

Upon completion of the survey, the data recordings were entered into a spreadsheet (Microsoft Excel V.7) in order to produce summarised tabulations for 15 minute and hourly segments.

Survey Details

Survey Dates: Wednesday 17th November – Sunday 12th December 2004

Hours: 0700 to 1900

Location: See enclosed map

Classifications: As above

Intervals: 15 minutes for traffic counts, exact time for Pedestrian and Interviews

Weather: Included on each site report.

Notes:

Site 4 - No traffic on paths, only movements are private house to car.

Site 6 - No Movements..

Site 12 - Nothing to count.

Site 13 - South Woods closed during Survey.

Site 15 - South Woods closed during Survey.

Site 16 - Street Lit.

Site 18 - Some sun flare during day.

Site 20 - Nothing to count.

Site 21 - Well lit by street lights.

Site 23 - Well lit by industrial street lights.

Site 32 - Footpath not used.

Site 33 - Equestrians seen on path on previous day to survey.

Site 36 - Nothing to Count.
