

Confidential Appendix CA12.3: Confidential Ecological Features

1 Purpose of Appendix

1.1.1 This appendix provides the results of the assessment of detailed information on the survey baseline for confidential ecological features outlined in Chapter 12: badger, otter, freshwater pearl mussel (FWPM) and Schedule 1 bird species. This appendix is prepared as a confidential appendix, submitted to SNH and the Scottish Government, and not included within the published ES.

1.1.2 A request for a copy of the appendix may be made in writing to:
