1 List of Waste Sites and Capacities Within the Study Area

1.1.1 Table 1 lists the available waste management infrastructure within the Project 8 study area including the type, locations and capacities of each facility. The locations of the operational waste management infrastructure within the study area are also presented in Drawing 18-1 (Volume 3). These data support the assessment presented in Chapter 18 and have been ascertained through a review of the baseline information sources identified therein.
